

## UK ENGINEERING WORLD-CLASS CAPABILITY

The UK engineering sector has strength and capability in a wide range of product and service areas. UK companies of all sizes trade and do business across the world and have extensive experience selling to a wide range of customers. UK engineering companies know international markets and can respond to customer needs to deliver added value.

UK engineering companies supply to a wide range of end-users that include the aerospace, automotive, chemicals, construction, food, healthcare, oil and gas, mining, pharmaceutical, power and printing and publishing and steel industries. The diversity of its customer base gives UK engineering companies their competitive edge and the flexibility to offer innovative solutions to international customers.

**“UK companies of all sizes trade and do business across the world and have extensive experience selling to a wide range of customers”**

A wide spectrum of sub-sectors is covered in this brochure. There are separate pull-out inserts on advanced steel making, ceramics, instrumentation and advanced control systems, manufacturing technologies, metrology, plastics processing machinery, printing and publishing technology, process and packaging equipment and solids and materials handling. Each inserts highlights areas of UK innovation and technological development and gives case studies of UK companies that are at the leading edge of their respective engineering product and service areas.

This brochure gives you a good insight into the strength, capability and diversity of UK engineering companies. I hope it will encourage you to do business with the UK's world class companies in engineering.

## FOR MORE INFORMATION

---

### ADVANCED STEEL MAKING:

British Metallurgical Plant Constructor's Association [www.bmpca.org.uk](http://www.bmpca.org.uk) Tel: +44 (0) 114 266 3321

### CERAMICS

North Staffordshire Chamber of Commerce and Industry (NSCCI) [www.nscci.co.uk](http://www.nscci.co.uk) Tel: +44 (0) 1782 224429

### HIGH TECH MANUFACTURING TECHNOLOGY

Gauge and Toolmakers Association [www.gtma.co.uk](http://www.gtma.co.uk) Tel: +44 (0) 1844 274222

### INSTRUMENTATION AND ADVANCED CONTROL SYSTEMS

Gambica [www.gambica.org.uk](http://www.gambica.org.uk) Tel: +44 (0) 20 7642 8080

### MANUFACTURING TECHNOLOGY

Manufacturing Technologies Association [www.mta.org.uk](http://www.mta.org.uk) Tel: +44 (0) 20 7298 6413

Gauge and Toolmakers Association [www.gtma.co.uk](http://www.gtma.co.uk) Tel: +44 (0) 1844 274 222

### NANOTECHNOLOGY

Micro and Nanotechnology (MNT) Network [www.mntnetwork.com](http://www.mntnetwork.com) Tel: +44 (0) 151 794 8022

### PLASTICS AND PROCESSING MACHINERY

British Plastics Federation [www.bpf.co.uk](http://www.bpf.co.uk) Tel: +44 (0) 20 7457 5048

### PRINTING AND PUBLISHING TECHNOLOGY

PICON [www.picon.co.uk](http://www.picon.co.uk) Tel: +44 (0) 1483 412 8111

### PROCESS AND PACKAGING MACHINERY

Processing and Packaging Machinery Association [www.ppma.co.uk](http://www.ppma.co.uk) Tel: +44 (0) 20 8773 8111

### SOLIDS AND MATERIALS HANDLING

Solids Handling and Processing Association [www.shapa.co.uk](http://www.shapa.co.uk) Tel: +44 (0) 1642 570 045
